

Voice of the Children Orphanage

This is a little orphanage we found in the heart of Port au Prince. It is ran by a widow of a pastor who has a heart for children. This orphanage of 43 children and 5 workers was within weeks of being dissolved. They had no food, water and barely any shelter. We believe God put our paths together. HH4H has partnered with VOC Orphanage since 2013.

With the help of sponsors we have provided food, safe shelter, and every child goes to school.

What does my \$40 per month do?

FOOD: 37% OF YOUR GIVING

Your gift will provide a nutritious monthly supply of food. This includes a steady diet of rice, beans, wheat and many essentials, such as flour, sugar and oil. Rice and beans is a common meal throughout the world, and is a staple in Haiti. We are continually monitoring the diet of the children to add variety and other forms of nutrition with quality protein and vegetables.

SCHOOL: 50% OF YOUR GIVING

Education is not free in Haiti, therefore your gift provides all the necessary tuition, uniforms and books. Keep in mind that the average cost of children above 6th grade is often more than double of a younger child. It is not uncommon for a Haitian to be limited to a 6th grade education, if any.

MISC. EXPENSE: 13% OF YOUR GIVING

As you can imagine the day-to-day expense of caring for 43 children is significant. Things we take for granted, such as water and electricity are not always accessible. Water and cooking fuel must be purchased. Other expenses include Haitian staff and occasional medical expenses for the children. These are items that must be budgeted, but cannot be predicted.

Because I delivered the poor who cried for help, And the orphan who had no helper. -Job 29:12

Helping Hands 4 Haiti "HH4H" is a non-profit organization dedicated to the compassionate care of orphans in the nation of Haiti.

We are a Christ-centered organization whose sole purpose is to improve the lives of orphans via food, shelter, education and medical needs. We believe the love of God and the gospel of Christ is not only to be shared in the word but also in deed.

HH4H was born out of a burden placed by God after the 2010 earthquake. Haiti was only the name of a country whose people were suffering in abject poverty even before the quake.

But with the unfortunate events of January 12, 2010 our hearts melted with the compassion for the people of this tiny nation. We hope God could speak to your hearts about partnering with us as we change a nation one child at a time.

God Bless,
Jonathan and Michelle Carver
